

# THE WORLD UNITED

*A comprehensive guide to a Unity Consciousness Movement*

<https://theworldunited.org>

## WHAT IS THE WORLD UNITED?

THE WORLD UNITED (TWU) is a non-profit foundation which aims at awakening unconditional unity consciousness across the world by inviting, connecting and co-creating with all forces of truth and light across the world.

*THE WORLD UNITED is a movement which connects all individuals and institutions committed to personal and planetary evolution, working together as one unified whole across the planet to create a positive global transformation.*

THE WORLD UNITED is governed by inter-connected councils of members at county/state/province/national, and global level all over the world and is not governed by a single individual or a particular organized philosophy.

THE WORLD UNITED was launched in 2007 and is registered as a non-profit foundation in India; and we are encouraging all the TWU national and state level councils to register their bodies with the status of IT exemption like in India under section 80G of IT act which is equivalent to 501(C) of the USA.

**THE WORLD UNITED** is a quantum leap in the evolution of human consciousness. It is a manifestation of the vision of unity and spiritual family that is the essence of every ascended civilization. So far, the visions of unity have been held among small groups: individual, couple, family, tribe, nation. The Ascended Masters tell us that it is now time to **leap to the whole of humanity. HumanUnity**

## MISSION OF THE WORLD UNITED

*To create an unconditional unity consciousness across the world without any barriers of gender, language, culture etc*

The mission of THE **WORLD UNITED** is to increase the level of consciousness, harmony, spirituality, and love worldwide, and to achieve sustainable global peace and harmony by way of establishing councils at national, state/province and district and village levels.

## AIM OF THE WORLD UNITED

**To facilitate the unfolding of positive transformation by bringing together all transformational leaders, spiritual masters, healers, spiritual scientists, philosophers, educators, and the like, and by facilitating multiple conferences and symposiums around the**

**world where people from all walks of life convene to learn, participate, and take action for the betterment of our planet.**

THE WORLD UNITED follows a wisdom-centric model and not a person-centric model wherein teachings are more important than the teacher and mastery more important than the master. THE WORLD UNITED envisions authenticity replacing authority, and unity replacing uniformity so that the diverse spiritual schools of thought flourish in their own unique way. THE WORLD UNITED envisions that every individual finds their own way and choose their own guidance for becoming enlightened.

THE WORLD UNITED brings enlightened vision, intention, attention, and action as the ingredients to bring true peace and harmony to individuals, groups, and nations. By moving together, THE WORLD UNITED fosters the flowering of **T.E.A.M. : Together Everyone Achieves Miracles.**

*Each person is a part of a much larger entity called Humankind which is much higher, larger and deeper than the individual self. In moving as The World United, each person grows into their whole self.*

To create positive world change, leaders and spiritual influencers of all nations are invited to unite on the common principles of peace and harmony.

Thus, THE WORLD UNITED has taken the role of bringing global harmony to this planet by connecting individuals, leaders and groups working in diverse fields (called ‘Wings’) such as Spiritual Science, Holistic Health, Environment, etc.

- To promote the view that the entire cosmos and all that exists within it are interrelated and interdependent and that nothing exists in isolation.
- To form councils of unity consciousness at Global, National, State/Provincial, District/County level.
- To facilitate Inner Transformation among people of all nationalities, religions, race, castes, color and creeds.
- To create “Enlightened Alliances” so that all people committed to truth and transformation, who are working tirelessly across the globe to uplift and support humankind can come together creating T.E.A.M. s (Together Everyone Achieves Miracles) to support one another in their quest for a better world.
- To promote SOULFULNESS MEDITATION to all human beings so that all outer activities are taken from a meditative consciousness within. Our aim is to have 100 million regular meditators across the world
- To integrate all the “Transformational Sciences”, such as, spirituality, holistic health, sustainability, education, economics, politics, arts, music, etc., to the highest level possible by facilitating conferences on “Spiritual Science” worldwide.

## **ACTIVITIES OF THE WORLD UNITED**

To fulfil its aims, TWU has initiated workshops, symposiums, and conferences worldwide. According to world and local situations, these activities can be in person or online, or a combination of both.

***The central theme: Personal Transformation for Planetary Unity***

- Local “Unity Conclaves” in districts, counties, and similar administrative units.
- Regional “We Are One” summits in states/provinces.
- National “Global Transformation Festivals.”
- Global “World Parliaments on Spirituality” held in different continents with thousands of spiritual leaders from almost all nations of the world.

**A major role of the Global Transformation festivals happening in each nation is the forming of national councils.**

**These national councils then organize ‘We Are One’ Summits at a state/provincial level and Unity Conclaves at District and County level.**

**TWU is moving into**

*6 Continents  
200 Nations  
7.8 Billion Population  
10,000 Spiritual Influencers*

**COUNCILS & WINGS OF THE WORLD UNITED**

**TWU consists of Wings that Council Members choose on joining. Wings focus our flow in the activities of humankind. The essence of the wings is spiritual.**

**Why Spirituality?**

**We are souls walking the human life on earth. Spirituality enables the human experience to become integrated as a soulful experience. It allows us to act, feel, think from our soul essence. Mind, body, life activities all awaken to the intent of the soul. The true essence of human beingness is experienced. We rise from the problems of our everyday life to the potentialities of eternal life.**

**Spirituality helps us to move from duality to unity. From mankind to humankind. From male and female to awakened whole beings.**

## COUNCILS OF THE WORLD UNITED

The General Unity Council is the core which co-ordinates all the wings.

Each Council - Global, National, State/Provincial etc. - will have 135 members each – 9 members for each of the 15 wings

Each wing has 9 members:

- 1 President
- 2 Vice-Presidents
- 1 Secretary
- 2 Joint Secretaries

- 1 Treasurer
- 2 Executive Members

The state/ province, district, village level councils have a Vice Chairperson and an Advisory body.

The members of the council at all levels from villages, towns and cities will together form the critical mass of awakening unity consciousness in humankind.

### **What is the vision for Council Members of THE WORLD UNITED?**

#### **Why is a council required?**

For Global Spiritual Awakening, a large number of spiritual beings are required from a regional level to a global level to awaken humankind from spiritual slumber. The council is like a spiritual friendship circle meeting with this shared purpose, to raise the conscious level of awareness.

#### **Aim of Councils of The World United**

To help Awaken Unconditional Unity Consciousness in humankind.

#### **How can this be achieved?**

Convergence of energy of several spiritual beings all over the world who can take up leadership in the areas of their expertise from the dimension of inner awakening.

#### **Reaching critical mass**

##### **What are we heading towards?**

##### **How to actualise unity consciousness?**

This can be done by following clear basic morals, principles and codes of conduct that sustain and uplift humanity. These disciplines and energy laws have come down through the ages, and resonate with the innate spirit of all individuals.

When they are honored with respect and integrity is practiced by the community, all humankind prospers and evolves with Divine Grace and Mercy through Love and Light.

Let's throw some light on this!

A large number of active people are needed to reach the critical mass for global awakening that Elders have called for.

How do we calculate the number of active people needed?

We are expecting to have 250 million people as the size of the critical mass for the unity consciousness considering 1% of the present population, which is active and strongly united by way of inner transformation

How can this be done?

We can create Councils at

Global - 18

Continental –  $135 \times 6 = 810$

National-  $135 \times 200 = 27,000$

State/Provincial –  $5,000 \times 135 = 67,500$

County (though we don't have proper count) let's suppose there 1, 00,000 counties –  $1, 00,000 \times 135 = 1, 35, 00,000$

Total = 13,595,328 (council members alone) rounding off to 14 million

In India and China (40% world population lives here, approximately)

District, Taluk, Village – it will be around 100 Million

Put together across the globe at a village level the numbers will be around 250 million

So a total of 250 Million council members' of 135 each at different levels – if each can influence 1 person per year, whole world moves into a powerful positive vibration

Theoretically, this is the idea but practically also, it's not going to be impossible –

ALL IT REQUIRES IS 10 MINUTES OF YOUR HIGH QUALITY TIME PER DAY – No overworking is needed

EACH ONE OF US NEEDS TO BUILD THE COUNCILS OF OUR LEVEL, NATIONAL OR PROVINCIAL – That's all – **Together Alone We Can Create Wonders**

Meditate – Meditate – Meditate

## Who can be a Council Member?

Anyone who feels that inner calling to connect in a spiritual friendship circle, who is ready to contribute quality time of 10 min per day on an average to fulfil the aims of a united world.

## Does being a Council Member interfere with my daily routine?

Council Membership assists you to achieve your potential, fulfil your higher purpose. This helps others to take the path within and move in unison for the fulfilment of personal and humankind's objectives: truth, love and harmony.

## If we all are doing this already, why is a Global Council for Unity Consciousness needed?

For many years, many individual activities have been held locally to raise consciousness.

The world is now ready for *collective activity*, to bring about a mass awakening of unity consciousness for our world population of 7.8 billion people (and counting). To impact the world for a positive transformation, collective efforts are now far more significant than individual efforts.

Hence all our individual and scattered activities and thoughts need to be aligned with collective consciousness in order to achieve global peace and harmony.

For building unity rather than uniformity, an *organized movement of awakened individuals*, rather than an organization, seems to be essential.

## SO HOW DO WE BEGIN? A 1000-DAYS plan

To begin this collective activity a 1000-days plan is proposed as a top priority.

### Stage One: From 2020

Formation of Global Council of 18 members – 3 from each continent, who in turn will form 135-member continent wise councils <https://theworldunited.org/wings>

### Stage Two: 2021- Global Transformation Festivals (GTF) in continents and nations

These continent- and nation-wise councils will organize online events on Unity Consciousness in 2021 titled '**Global Transformation Festivals**' inviting as many speakers as possible who represent different countries and involving as many participants as is possible in each country. No country will be left untouched.

### Stage Three: From 2022- We Are One (WAO) Summits in states/ departments/ provinces

The activity will expand to a state or provincial level and form a 135-member council ( 9 members for the each of 15 wings) – the state/province-wise events are titled '**We Are One**' Summits

### Stage Four: From 2023 – Unity Conclaves in districts/ regions/counties

~~~~~

Awakening is aimed through unity at a grassroots level, both by pure and applied spiritual aspects at district/meso region/ municipalities/counties of all nations by way of manifesting 'Unity Conclaves' everywhere.

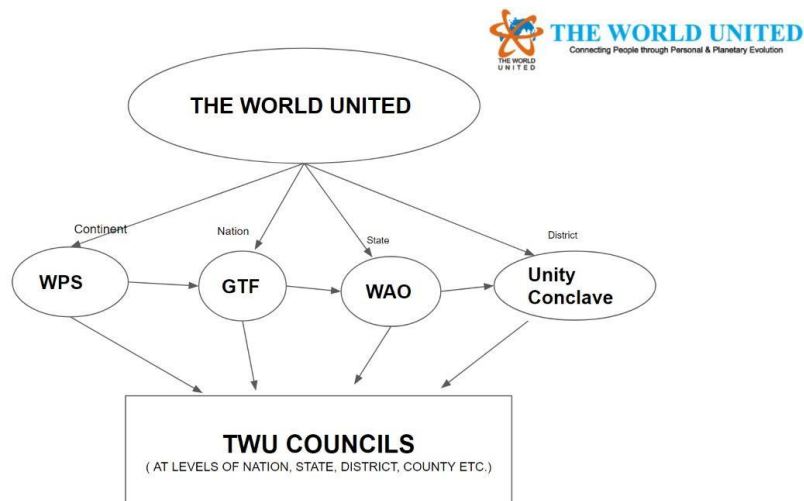

### Stage Five: In 2024- The fourth World Parliament of Spirituality (WPS-4)

A grand **WPS-4** as a physical summit with live online streaming for those who cannot participate in person, can be manifested with as many pre-parliaments across the world as possible.

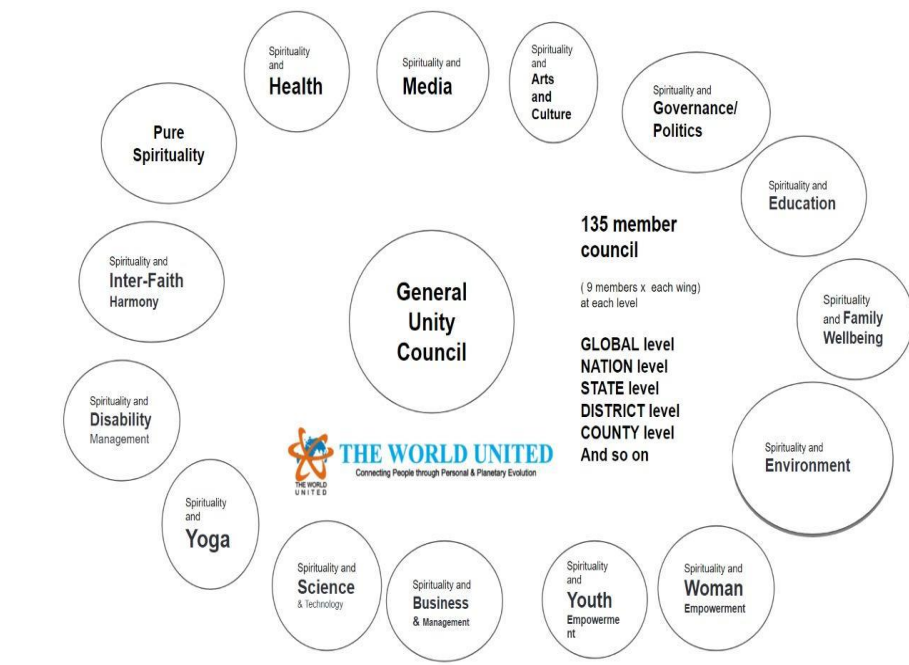

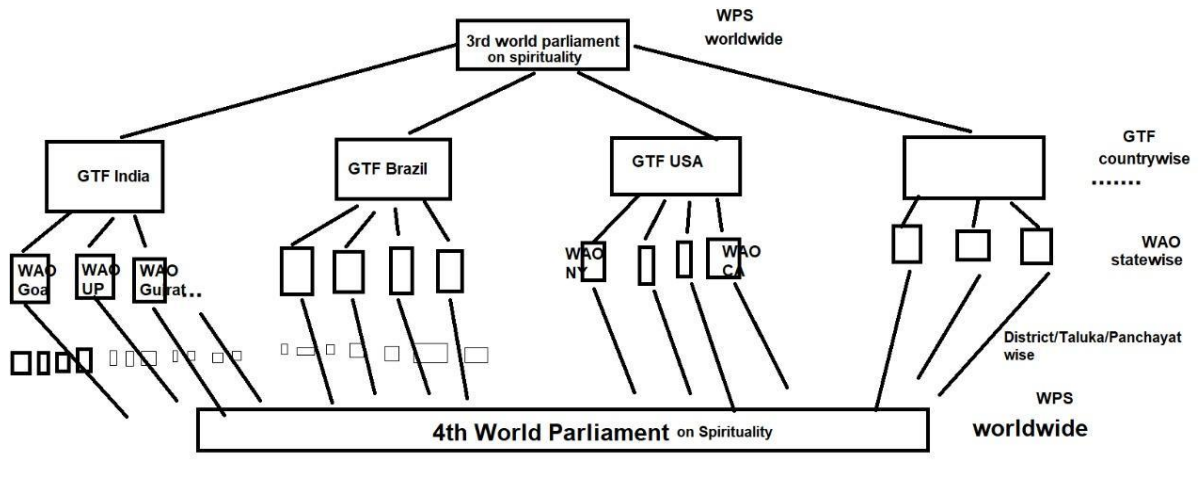

This is WPS-4 because we have already conducted three previous gatherings of World Parliament of Spirituality.

### Final Outcome

If we can hold the energy for 1000 days, we can collectively manifest a real grand spiritual awakening, essential for our world. We have all taken birth to assist one another in the evolution of human consciousness.

## LIVING TOGETHER IN COMMUNES

### THE WORLD UNITED COMMUNES

A vision of The World United is to form communes for commUNITY living. Just as the sun shines down on the canopy of trees, and then on the branches and trunk of the tree, so does this movement spiral in from fostering community at global levels, to strengthening unity at national, state and local levels. The envisioned communes will bring a new consciousness to the philosophy of oneness prevalent in many cultures, such as:

*Udaar charitanam Vasudev Kutumbakam* (To the large hearted, the whole world is family). - Sanskrit  
*Mitakuye Oyasin* (All my relations)- Lakota  
*In Lak'ech* (I am another you) – Maya  
*Ubuntu* (I am because we are( – (Humanity) - Zulu

## MISSION OF THE WORLD UNITED COMMUNES

- To research and disseminate spirituality as an art and as a science, which includes pure spirituality and spirituality applied to various transformational sciences like health, education, business & management, environment, governance etc to people of all walks of life.
- To establish awakened communes in every village, town and city of the world where spiritual seekers and leaders from diverse schools of spiritual thought across the world live together for the purpose of collective work towards global peace and harmony, instead of living in closed wall houses, scattered across the globe.
- To establish various institutes enlivened by spiritual principles related to education (gurukul), holistic health (integrated healing units), spiritual research institutes (bio-feedback, energy mapping, ESP), home for Elders, small scale industries, natural farming, etc.
- To educate people in terms of health-enhancing lifestyles with increased happiness and spiritual quotients by way of conducting various transformative educative events and camps.

The development of various wings of THE WORLD UNITED commune contains

- Meditation centre which will be the icon of each commune
- Infrastructure for schools and various education centres
- Small Scale industries of developing various crafts, ayurvedic products, soaps, incense etc
- Holistic health hub
- Human-made Lake/s and pools
- Lotus ponds
- Social forestry allowing various animals live with us so as to make it an ecosystem on its own
- Meadows, natural grass lawns, parks, greenery
- Common kitchens and dining spaces
- Play areas
- Rooms for residents and guests – eco-friendly structures with natural substances like rock, mud and wood, bamboo etc
- Rainwater harvesting system, sewage treatment and water management methods

## **FUND RAISING**

Funds will be raised through donations from people from all walks of life.

## **BRIEF DESCRIPTION OF THE WINGS OF TWU**

### **General Unity Council (GUC)**

The GUC is the core committee which co-ordinates with all the other wings of TWU. This is the central administrative block containing rooms for administration, board, staff etc.

### **Spirituality & Health**

Transform existing health practices into a holistic model, giving importance to integrated physical, psychological, emotional, and spiritual wellbeing. This wing includes various types of healing modalities: complementary, alternative, allopathic and others, to assist the healing process within an individual. Services will be provided to all who come to this holistic health hub.

### **Spirituality & Education**

Re-define education (from pre-natal to geriatric age group) by emphasizing the importance of developing inner strength as a means of character building to develop enlightened world citizens.

An educational system will be developed enabling children to learn various arts, sciences, and philosophies for developing character and consciousness. Pre-school to university education will be available to all.

### **Spirituality & Family Wellbeing**

Importance of family and raising the commune's children by dedicated adult residents. This allows the child to develop their own consciousness by exposure to different viewpoints, learning from several people, not restricted to conditioning of individual parenting.

### **Spirituality & Environment**

This wing will make the premises green and sustainable by way of producing proper food through permaculture and other pesticide-free agricultural methods. It also encourages and empowers the neighbouring areas in the same way – treatment of water, irrigation, and purification of the five elements will also be done by this department.

### **Spirituality & Women Empowerment**

To share resources that nurture and cultivate the divine feminine in each human being – the qualities of self-empowerment, nurturing, caring, compassion and sharing.

~~~~~

## **Spirituality & Youth Empowerment**

To promote, showcase and enhance the innate abilities and honouring of each young person for their own and others' evolution and to inculcate principles of centeredness, balance, peace, and harmony at a young age, so that they become responsible citizens of the world – all this with the help of periodical classes and workshops in residential and non-residential ways.

## **Spirituality in Business & Management**

To transform existing business and management practices into a holistic model achieving excellence combining spiritual strength, personal integrity, and honour. To become a resource of information for effective management practices. Professionals will offer such services to people and organizations all over the world through various spiritually empowering ways and means by way of creating self-banking systems.

## **Spirituality & Science & Technology**

Establishing spirituality through various scientific means like principles of quantum physics and other methodologies, spiritual research laboratory, bio-feedback mechanisms etc.

## **Spirituality & Media**

An established media centre which designs and promotes the activities, publishing periodic magazines, and journals. Managing different channels on social and electronic media of the communes and influencing the global media - print, electronic and social media - from a spiritual perspective which allows the power of media to shift from ratings-centredness to a transformation-centred force.

## **Spirituality and Arts & Culture**

All things are created spiritually before they are created physically. The arts enable us as humans to understand eternal concepts more profoundly, including the ubiquitous challenge of all humankind to embrace the dual nature of our spiritual and physical existence. The Arts & Culture wing is a non-denominational element that encourages all to join together in using the arts to express the underlying spiritual values we share: peace, love, acceptance, oneness, the divinity and eternal nature of the soul and the interconnectedness of all humankind, nature and the universe.

## **Spirituality & Yoga**

To help develop a seamless society of yoga practitioners who are committed to the essence of yoga as union of body, mind and soul, sincere in their efforts of uniting with the highest level of

~~~~~

consciousness. Going beyond asana as a set and series of physical twisting and breathing exercises to attain the centred consciousness. Spreading the essence of yoga.

### **Spirituality and Good Governance & Politics**

To train leaders and administrators in various areas of administration with course content incorporating ethics and values. Foster administration that is ethical, and people oriented. To create awareness among the authorities and the public for a value-based administration by publishing literature, organizing seminars and regional conferences. To promote a political culture in which politicians imbibe values and spiritual principles moulding them to become statesmen, governing with leadership and not force. To communicate and administer in clear and simple language to all.

### **Spirituality and Inter-Faith Harmony**

Promote religiousness instead of belief systems as rigid religions. This is possible through dialogues at various levels, from grassroots to corporates and educating the importance of internalization of consciousness more than following certain rituals and prayers and thus becoming fundamentalist and intolerant.

As we proceed together, our co-creations will help our concepts and vision to become clearer and clearer. This document will be edited periodically. Stay tuned!
